

Heartbeat heartcore

I feel my blood running fast
I remember moments of joy and pain
the heartbeat of love, fear, pride and shame
pump my blood faster again and again
Forever heartcore side by side
We have to rule our game
but at the end of the rope
there is always faith, love and hope

Heartbeat heartcore

rise up now!

Let's make it happen

we know how!

Can you feel *the* heartbeat

running next to mine

do you feel the passion

that keeps you and me alive?

Can you feel my heartbeat, yeah! I can't deny it

You have the power, this is your life

same rise, same fall - same burden and same shine

got a house, wife and kids - all your living in crime

One life, one love - one reason to die

you can walk head down or search for the sky

try to live forever and you will die trying

it's not what you have but what you make out of your life

Heartbeat heartcore

rise up now!

Let's make it happen

we know how!

(Can you feel) the heartbeat..
