

Pretty naughty nasty

refrain:

pretty naughty nasty, pretty naughty nasty
come on girls, scream and shout
pretty naughty nasty, pretty naughty nasty
pretty naughty nasty, scream it out

strophe1:

wake up in the middle of the night and face the true – *IT'S NOT YOU!*
i don't wanna talk, i don't wanna fight, wanna be myself by day and night
driving me crazy, makes me feel insane, searching for a prince and met a frog again!

bridge:

don't look back, follow the light
this is our day and we own the night
this is not for you, this is just for me
this is not a lovesong

refrain:

pretty naughty nasty, pretty naughty nasty
come on girls, scream and shout
pretty naughty nasty, pretty naughty nasty
pretty naughty nasty, scream it out

strophe2:

can't feel passion, can't feel true, who are you? where are you?
this is not for you, this is just for me, can't keep in touch with you or me
i go for the crush, i go for the strike, no fucking doubt, power is with me

bridge:

don't look back, follow the light
this is our day and we own the night
this is not for you, this is just for me
this is not a lovesong

refrain:

pretty naughty nasty, pretty naughty nasty

come on girls, scream and shout

pretty naughty nasty, pretty naughty nasty

pretty naughty nasty, scream it out
