

## **HEARTBEAT HEARTCORE**

I feel my blood running fast  
I remember moments of joy and pain  
The heartbeat of love, fear, hope and shame  
Pump my blood faster again and again

Forever heartcore side by side  
We have to rule our game  
At the end of the rope  
There's always faith, love and hope

Heartbeat Heartcore - Rise up now  
Let's make it happen - We know how

*Can you feel the heartbeat  
running next to mine?  
Do you have the passion  
to keep you and me alive?*

Do you feel my heartbeat I can't deny?  
With passion and power I create my life  
My friends, my love, my family  
open my mind and let me feel free

One life, one love, one reason to die  
If I fall down, get up, reach for the sky  
Heartbeat heartcore make the world go round  
Still keep on fighting for the things I want

Heartbeat Heartcore - Rise up now  
Let's make it happen - We know how

Can you feel the heartbeat  
running next to mine?  
Do you have the passion  
to keep you and me alive?

## **BLOODY FLOW**

Full days of work, kids, boys and dogs  
Fun and conflicts, time and pressure  
Running and running from spot to spot  
It's a long way, a long way to the top

Tuesday at seven - the place we know  
One for the money and two for the show  
We are here - we are now  
Let's go to the bloody flow

*The sound starts to buzz  
The minds shut up  
We bounce and play and hit and sing  
Forget about everything  
We find the flow - the flow finds us  
We are here - we are now  
We hit the shit  
We love the bloody flow*

Open the code, switch on the light  
Rehearsal, discussions, DIY  
Excitement to show the newest draft  
A new song gets born and will not be the last

Witch cauldron, hit lab retreat  
Source of energy - we feel the beat  
We play what we see  
Straight from our hearts, lets us feel free

*The sound starts to buzz  
The minds shut up  
We bounce and play and hit and sing  
Forget about everything  
We find the flow - the flow finds us  
We are here - we are now  
We hit the shit  
We love the bloody flow*

## **DON'T TRY**

Do you really try to tell me  
what I have to do  
you must be kidding  
I can't believe it's true

I don't care about authority  
don't talk bullshit to me

I'm walking through my life  
always straight and strong  
I try to survive  
and to act by my own

I don't care about authority  
don't talk bullshit to me

*don't try to push me down*  
*don't try to push me down*  
*don't try*

Do you really try to tell me  
what I have to do  
you must be kidding  
I can't believe it's true

I don't care about authority  
don't talk bullshit to me

Pull your head out from the ass  
of order and authority  
There's no reason to lick asses  
no reason to kissing feet

I don't care about authority  
don't talk bullshit to me

*don't try to push me down*  
*don't try to push me down*  
*don't try*

## **DONALD**

don't ask me f\*\*\*  
because I said it so  
every black is a criminal and  
every bitch is a whore

but if you ask me  
it's still alright for you to smile  
a little trick - a little lie

great men rule the world

oh look - Berlin  
we build a wall too  
you can't believe, but YES  
we can, we won the world war II

we police the world  
no place for you to hide  
the winner jacket will be mine

great men rule the world

*YES, YES we can  
the spinner takes it all  
YES, YES we can  
the spinner takes it all*

the weather is good  
climate change is a lie  
white lash  
by thousands of sound bites

outside it's cold and white  
the chineses and the huggers of a tree  
are the real, the real enemy

*YES, YES we can  
the spinner takes it all  
YES, YES we can  
the spinner takes it all*

## **MAGIC MOMENTS**

magic moments  
every day unique  
precious second every single one  
I learned to be aware

chances passing by  
and want to be lived  
with heart full on

it will be gone  
and never come back  
be present every second every single one  
I guess that's the way

to take the chance  
to live before we die

you know what I mean  
try to give all in  
loose or fight, fail or win  
life is in between

live or die  
give it a try  
live or die  
give it a try

every single moment can be the one

## **THINGS WILL HAPPEN**

Things will happen while they can  
So what are the conditions?  
You don't know? Then here's a clue:  
your wishes will always come true.

Look around your neighborhood  
We all can be the one  
Don't be shy for who you are  
Be sure that you belong

Be yourself and fight for that  
'cause we are on your side  
Let's crush the falseness in this place  
By speaking up we fight! We fight!

*This world will change if we try  
Let's make a difference, let's reach out high  
There's no end to our free will  
Come and join, let's live the thrill*

You can lead with your ideas  
Just be loud instead of silent  
Take your dreams to higher levels  
Be the one who sounds the sirens

Be the one to live your values  
Don't look back but straight ahead  
You're the one that matters to us  
Take the lead and we will follow!

Things will happen while they can  
and what you wish for is your choice  
The truth is hard to see  
Your wishes will always be free

*This world will change if we try  
Let's make a difference, let's reach out high  
There's no end to our free will  
Come and join, let's live the thrill*

## **GET UP!**

Hey man - don't tell me  
that heaven is under earth  
I know you don't know  
what life is really worth

All that glitter, it's not gold  
half of the story is never,  
never been told

Now you see the light  
you can stand up for your right

*Get up, stand up and fight for your right!*  
*Get up, stand up and fight!*

Sick and tired of your game  
living and dying in moneys name  
We know you don't know  
the almighty are the living men

You can fool some people sometimes  
But you can't fool them,  
yeah you can't fool them all the time

Hey man - don't tell us  
that heaven is under earth  
We know you don't know  
what life is really worth

We make the glitter, we make the gold  
Now our story is gotta,  
yeah gotta be told

Now we fuel the light  
don't give up the fight!

*Get up, stand up and fight for your right!*  
*Get up, stand up and fight!*

## SHAME ON YOU

you politicians are hungry for power  
change your mind and turn your head  
if it's convenient to you, convenient to you  
today your enemy, tomorrow your friend  
you talking big, we hear your lying  
you send weapons, people are dying, people are dying

*an ape is an ape and a warlord is a warlord  
even though they're hiding under silk or scarlet  
an ape is an ape and a warlord is a warlord  
hey you spin doctors - we're sick of your games!  
hey you spin doctors - SHAME ON YOU!*

watching the news fucked my brain  
only a few pictures you sell as the truth  
what a simple game from one point of view  
you try to make up reality  
you explain who's right or wrong  
just the half of the truth, the half of the truth

*an ape is an ape and a warlord is a warlord  
even though they're hiding under silk or scarlet  
an ape is an ape and a warlord is a warlord  
hey you storytellers - shut up now!  
hey you storytellers - SHAME ON YOU!*

polemic gossip . it's difficult looking through  
why do you need an enemy  
don't believe the hype, read between the lines  
superficial knowledge, oh people take care  
propaganda gossip tries to kill my brain  
bombing for peace is like fucking for virginity

*an ape is an ape and a warlord is a warlord  
even though they're hiding under silk or scarlet  
an ape is an ape and a warlord is a warlord  
hey you gossip believers - your brain is fucked!  
hey you gossip believers - SHAME ON YOU!*

an ape is an ape and a warlord is a warlord  
Even though they're hiding under silk or scarlet  
an ape is an ape and a warlord is a warlord  
listen to us - we're sick of your games!

spindoctors, spindoctors - SHAME ON YOU  
storytellers, storytellers - SHAME ON YOU  
gossips, gossips - SHAME ON YOU

*SHAME ON YOU, SHAME ON YOU!!!*

## LUST FOR LIFE

you stepped into my life, my head was spinning  
it turns all over, my grip was lost  
voices in my head, gossip on the street  
we jumped in, no matter how it ends  
you're so crazy, lovely, hot and funny  
Sometimes - you act like a Ronny

*lust - lust for life*  
*lust - lust for life*  
*lust for life is the engine of the game*  
*come on babe surprise me again*  
*lust for life is the engine of the game*  
*come on babe surprise me again*

from the coal mine to the top of the world  
let's take the ride like Bonnie and Clyde  
armed with pen, guitar or mic  
we create the sound for the stage of life  
put down to earth or money and fame  
just do or die - it's always the same

*lust - lust for life*  
*lust - lust for life*  
*lust for life is the engine of the game*  
*come on babe surprise me again*  
*lust for life is the engine of the game*  
*come on babe surprise me again*

you lost your grip and drive me insane  
I have to go away, inside I feel pain  
you're so moody, angry, sick and numb  
now it's too much Ronny

*lust - lust for life*  
*lust - lust for life*  
*lust - lust for life*  
*lust - lust for life*

*lust for life is the engine of the game*  
*I need another babe to drive me insane*

## SEE YOU

You are ready to go - not ready to go now  
You are ready to go - not ready to go

You had a hardknock life  
got fucked a million times  
You moved on forward  
But something still remains

I won't let you go - won't let you go now  
I have to let you go - I will let you go

Your heart is hard and hurt  
Your love is warm and light  
No more pain, no more sorrow  
See you on the other side

*See you on the other side*  
*See you on the other side*

You are ready to go - not ready to go now  
You are ready to go - not ready to go

Catastrophe and destiny  
life's a melting pot  
One love - one heart - one family  
In many hearts your bombs will grow

I won't let you go - won't let you go now  
I have to let you go - I will let you go

I listen to your words  
and feel your love inside  
I don't wanna say goodbye  
see you on the other side

*See you on the other side*  
*See you on the other side*

Maybe I'm foolish  
Maybe I'm blind  
I really want to believe  
there's something on the other side  
I really want to believe  
you see me from the other side

And we meet each other again

## HEY BLOODY MARYS GO!

smash the pavement, destroy the hell  
take your anger, go and fight  
no such thing as something free

*What has become of berlin?*  
*What has become of berlin?*

we have the power, we get the streets  
no need for security  
want to live my life for me!  
why can't they just let me be?

*Hey Bloody Marys go!*  
*Hey Bloody Marys go!*  
*Hey Bloody Marys go!*
